Construction News Flash

Edwards AFB Community Health Clinic

From the Office of Development Director
David C. Thompson II, 1st Lt, USAF, MSC
Marla D. Muse, MSgt, USAF, NCOIC
661-277-2622 / 661-277-4162

MILCON Progress

- Structural Steel Beams and Columns Complete in area 12 (warehouse). First floor complete for areas 10 and 11 (main clinic).

MILCON Progress

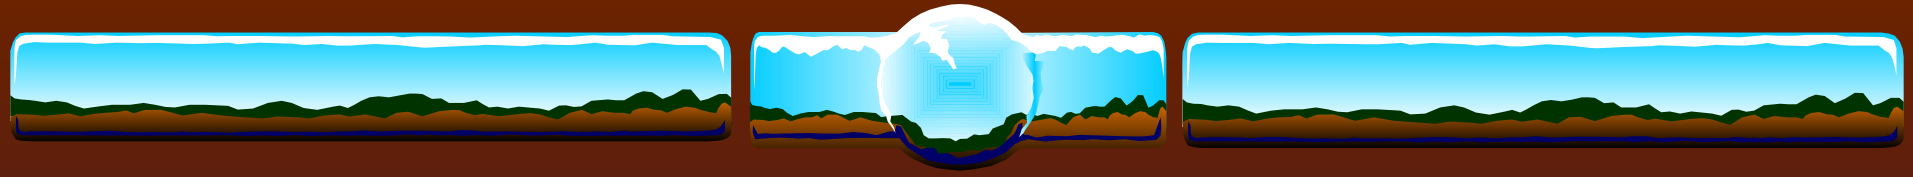
- Underground utilities, to include gas, electric, and plumbing have been laid.
- Should have power to the site next week.

Future Progress

- Starting erection of steel decking and joists (for the floors) the first week in Feb.
- Concrete patient pathway to begin in Feb (upon completion of underground utilities).

MILCON Agenda (*For all Sections*)

- MSgt Muse and I are completing the validation of equipment and furniture for each section.
- Review your “blue folder” to annotate any changes for final validation of your section’s furniture and equipment.
- Please submit any and all changes to the DD (room 334/336) by the designated deadline.



Construction Safety

- Welding on the columns and beams is ongoing, so ***do not stare at the welding as it could cause eye damage!***
- Sections: *Do not block emergency exits,* as they are a means of escape for construction workers.
- Construction is now ongoing, so please continue to remain alert and mindful of machinery, traffic, and cord-offs.
- Your continued patience with our progress is appreciated.
